

# Aarav Deshmukh

Motivated Biomedical Engineer with Knowledge in Medical Devices and Biotechnology

+91-9123456789 example+biomedical@kudoswall.com

[LinkedIn](#)

## Summary

Dedicated Biomedical Engineering graduate with experience in developing and testing medical devices. Skilled in biomedical signal processing and medical imaging. Passionate about improving healthcare solutions through innovative engineering approaches.

## Education

### Bachelor of Engineering (B.E.) in Biomedical Engineering

MIT College of Engineering

8.5 CGPA

2023

- Relevant Coursework: Biomedical Instrumentation, Medical Imaging, Biomechanics, Clinical Engineering
- CGPA: 8.5/10

## Internships

### Biomedical Engineering Intern

MedTech Solutions

Jan 2023 - May 2023

Pune

- Assisted in developing and testing wearable health monitoring devices.
- Conducted validation and calibration of biomedical sensors to ensure data accuracy.
- Collaborated with cross-functional teams to design patient-centric solutions.
- Supported clinical trials by gathering and analyzing biomedical data.

## Academic Projects

### Development of a Non-Invasive Blood Pressure Monitoring Device

- Designed and developed a prototype for continuous blood pressure monitoring without cuff inflation.
- Utilized signal processing techniques for accurate readings.

## Skills

### Technical Skills

Medical Device Development, Biomedical Signal Processing, Clinical Trials Support, Data Analysis

### Tools & Software

MATLAB, LabVIEW, SPSS

### Soft Skills

Communication, Problem-Solving, Attention to Detail

### Languages Known

English, Hindi

## Licenses & Certifications

### Certification in Medical Device Design - Coursera

### Fundamentals of Biomedical Imaging - Industry Course
